

FROM MUNICIPAL PARKING TO SECOND ST

FROM N. FRANKLIN & SOUTH FRANKLIN TO 385 SECOND ST

*** SPECIAL NOTICE ***
(ONE WEEK PRE-NOTIFICATION)

This is to inform you that the Village will be rehabilitating the sewer mains in your neighborhood using a method called CIPP Corp® PIPE, Cured-in-Place Pipelining. This system will provide a new, joint-less sewer pipe for your area that minimizes root and water infiltration problems, improves flow, and provides for a more structural sound pipe without the need for excavation. To accomplish this, **there will be a temporary disruption of sewer service to your residence or business for a period of approximately 6 hours.**

This interruption in sewer service will tentatively occur on Week of 10-26-20

You will receive a 24 hour pre-notification for the day before we do actually line the pipe that your home is connected to. This notification is to make you aware of what will be taking place, and **the above date is subject to change.**

During this period your property's sewer service connection will be completely sealed off from the Village's sanitary sewer main in the street. Please limit the use of water going down your drains to an absolute minimum and do not use washing machines or dishwashers. If you must shower, leave the water in the tub until your service has been restored. Any sump pumps connected to the sewer system must be disconnected and/or discharged elsewhere to avoid possible damage to our liner, or backups in your basement. **Failure to follow these instructions may cause your discharge to backup into your property.**

On residential streets, the set-up of equipment may cause some adjustments in parking and neighborhood driving patterns. However, every effort will be made to make this inconvenience as slight as possible.

During certain phases of the operation, you may detect an odor. Odors are most likely to occur in houses or buildings with dry or non-existent traps. In most cases, any odors can be minimized by pouring several gallons of water down your sinks, showers, toilets, etc.; and by opening your windows.

If you have any questions or concerns during the course of our installation period; please do not hesitate to ask for the Site Supervisor or Crew Foreman at the job site.

When your service has been restored, you will be promptly notified with another notice.

If you have any questions or concerns regarding this project; please contact any one of the following during business hours, Monday-Friday

Main Office (802) 763-7022
Site Superintendent: Dan Whooley – (802) 316-6576

Thank you for your cooperation.
